

GasWORLD
Your Total Gas Solution

MEDICAL EQUIPMENTS

ABOUT US

Gasworld Sdn Bhd was incorporated in Malaysia in 2006, and has since established leadership in providing total gas solutions for diverse industries.

Gasworld's portfolio of products involves the distribution of a comprehensive range of quality products and gases such as Industrial gases, Medical gases and equipment, Firefighting gases and equipment, Welding equipment and consumables, Abrasive products, Welding equipment, Safety equipment as well as Refrigerant gases and equipment.

At Gasworld, we strive to understand your needs better and are dedicated to maintain long-term relationships with all our stakeholders. Our reliability and adherence to stringent quality standards has gained us a distinctive standing in the industry. We are a GDPMD Certified company, and an authorized agent of Air Products Malaysia Sdn Bhd, a world leading Fortune 500 company specialising in industrial Gases.

Driven by 180 employees, Gasworld is committed to employing best practices in safety, sustainability and customer service, as we grow our product offering and our circulation.

Experience the quality and reliability of our services!

OUR PRODUCTS INCLUDE:

- Pulse Oximeter
- SPO₂ Probe Sensor
- Oxygen Regulator
- Demand Valve Resuscitation Set
- Medical Flowmeter
- Suction Regulator
- Suction Trolley System
- Medical Outlet
- Bed Head Outlet
- Portable Oxygen Kit
- Medical Hose
- Respiratory Accessories
- Oxygen Concentrator
- Medical Gas Cylinder

Finger Pulse Oximeter - OxiSmarter 1

OxiSmarter 1 is a nicely designed Finger Type Pulse Oximeter which can check a patient's heart rate and blood-oxygen saturation levels easily and quickly. The OxiSmarter 1 finger type pulse oximeter provides reliable SpO₂ and pulse rate measurement and can be worn around the neck. It is convenient for spot check readings. The OLED display and adjustable brightness allow usage in a wide range of light and dark environments. And the value of SpO₂ and PR can be clearly read at different angles from the OLED display. It is a great SpO₂ diagnostic tool for physicians and nurses to go for inspection around sickrooms of hospitals, also suitable for clinic and home use.

Features

- Large OLED display with SpO₂ waveform
- Display direction can be selected
- Low battery capacity indication
- Automatic power off after removing finger within 8 seconds
- Light weight
- Two AAA batteries for easy replacement
- Brightness can be set at 10 levels
- Can be worn around the neck for quick spot checking

Technical Specifications

Patient Range	Adult & Paediatrics	
Display	Digital OLED display, 6 display modes	
	<i>Parameters</i>	SpO ₂ Pulse Rate (PR), PLETH bar, waveform
	<i>Information</i>	Low battery
	<i>Brightness</i>	Adjustable (10 levels)
Battery	2 AAA (1.5Vdc) batteries Runtime: minimum 30 hours for standard use	
Pulse Rate (PR)	<i>Range</i>	30 - 235 bpm
	<i>Resolution</i>	1 bpm
	<i>Accuracy</i>	30-99 bpm : +/- 2bpm 100 - 235 bpm : +/- 2%
SpO₂	<i>Range</i>	70% - 100%
	<i>Resolution</i>	1%
	<i>Accuracy</i>	70% - 100% : +/- 2% 0% - 69% not defined
	<i>Method</i>	Dual wavelength LED
Environmental	<i>Operating Temperature</i>	5°C - 40°C
	<i>Storage Temperature</i>	-20°C - 55°C
	<i>Operating Humidity</i>	RH ≤ 80%, non-condensing
	<i>Storage Humidity</i>	RH ≤ 93%, non-condensing
Classification	<i>Type of protection</i>	Internally Powered
	<i>Equipment</i>	
	<i>Compatibility</i>	Class B
	<i>Safety</i>	IEC 60601-1-2
Appearance	<i>Dimension</i>	61 x 32 x 37 mm
	<i>Weight</i>	50g (including 2 batteries)

Display Mode

Oxy-Panda is a Finger Type Pulse Oximeter, which is made specially for children. The cute panda design makes SpO₂ measurement simple and easy for kids. Panda can check children's heart rate and blood-oxygen saturation levels accurately and quickly. There are 6 display modes to make values' reading convenient. It is a great SpO₂ diagnostic device suitable for both clinic and home-care.

Features

- Easy and simple operation
- Display SpO₂, PR, Pleth Bar, Pleth waveform
- Low power consumption; automatically power off when finger out in 8 seconds
- Six display modes; adjustable brightness
- Battery-low indicator
- Suitable for use in hospital or at home

Color Options

Oxi-Q is a Finger Type Pulse Oximeter which can check a patient's heart rate and blood-oxygen saturation levels simply and quickly. The values are displayed on a bright LED screen. The Oxi-Q finger type pulse oximeter provides reliable SpO₂ and pulse rate measurement and can be worn around the neck. It is convenient for spot check readings. The large LED display allows usage in a wide range of light and dark environments. It is a great diagnostic tool for physicians and nurses to go for inspection around sickrooms of hospitals. It is also a convenient equipment for home care users.

Features

- Large digital LED display
- Selectable two direction display
- Low battery capacity indication
- Automatic power off after removing finger within 8 seconds
- Lightweight (55g with batteries)
- Two AAA batteries for easy replacement
- Can be worn around the neck for quick spot checking

Interference Resistance Capacity against Ambient Light.

The deviation of Oxyhaemoglobin values measured in different light is smaller than +/-1%, making it suitable to operate in dark rooms.

Display Mode

Hand held Pulse Oximeter - AH-MX

AH-MX is a high quality and well functioning device to check a patient's blood oxygen saturation (SpO₂) level and pulse rate. As a portable, convenient and reliable physiological monitoring device, hand-held pulse oximeter AH-MX can greatly enhance patient care. It is widely applied in clinics, hospitals, medical organizations, and emergency wards, etc.

Features

- Visual & sound alarms
- Auto-rotate screen
- With medical grade AC/DC charger
- Convenient 3 AA size alkaline or rechargeable Li-ion battery
- Stores up to 99 IDs with 300 records each
- High resolution 24" color display
- Light and compact hand-held design

Technical Specifications

Patient Range	Adult & Paediatrics & Neonate patients	
Display	2.4" color display 320 x 240 pixels	
Battery	Li-ion rechargeable battery or 3 AA alkaline batteries (optional). Runtime 14 hours for standard use.	
Pulse Rate (PR)	<i>Range</i>	30 - 250 bpm
	<i>Resolution</i>	1 bpm
	<i>Accuracy</i>	+/- 2bpm
	<i>Refreshing rate</i>	<13 seconds
SpO₂	<i>Range</i>	0% - 100%
	<i>Resolution</i>	1%
	<i>Accuracy</i>	70% - 100% : ± 2%
		0% - 69% not defined
	<i>Refreshing Rate</i>	<13 Seconds

Data Storage	<i>Display way</i>	Trend tabular
	<i>Trend interval</i>	2 seconds to 30 minutes
	<i>Trend parameter</i>	PR, SpO ₂
	<i>Trend data</i>	Spot-check mode : ID from 1 to 99, 300 records for each ID
Alarm	Gives audible alarm, button tone and beep tone. Support Pitch Tone and multi-level volume Alarm tones met the requirement of IEC 60601-1-8	
Safety Standard	CE Classification : IIb Type of protection against electric shock: II, with internal power device. Degree of protection against electric shock : CF Degree of protection against ingress of liquid : IPX1 *Specifications are subject to change without notice	

Accessories

SPO₂ Probe Sensors

SILICONE SOFT-TIP TYPE

- Soft and comfortable for continuous monitoring
- Accurate and quick SpO₂ reading
- Easy to clean and durable
- Latex-free

ADULT TYPE

- Steady and comfortable hold of the fingertip
- Accurate and reliable oxygen saturation reading
- Easy to clean and durable

PEDIATRIC TYPE

- Small size for paediatric use
- Accurate and reliable oxygen saturation reading
- Easy to clean and durable
- Latex-free

NEONATE TYPE

- Keeps readings accurate while the child is in minor motion
- Holder can adjust for different size
- Easy to clean and durable
- Latex-free

DISPOSABLE TYPE

- Sanitary consideration
- Can apply for the wide range of finger sizes
- Uses medical grade transparent fabric material
- Self-adhesive and re-positionable design
- Cost-effective

SpO₂ EAR CLIP 3MT (ANIMAL)

- Accurate and reliable oxygen saturation reading
- Easy to clean and durable
- Latex-free

Specifications

Operation Model	Continuous
Pressure Range	4 - 20cm H ₂ O (adjustable in 1cm H ₂ O increments)
Pressure Accuracy	±0.5cm H ₂ O
Unit Dimensions	140mm (L) x 140mm (W) x 110mm (H)
Weight	910g
Sound Pressure Level	< 30 dB (A)
Alarm Sound Pressure Level	> 39 dB (A)
Supply Voltage	AC 100-240V, 47/63Hz, < 110W
Operation Range	Temperatures: 5°C ~ +35°C Humidity: 10% ~ 90% Non-condensing
Transport and Storage Range	Temperatures: -20°C ~ +85°C Humidity: 10% ~ 90% Non-condensing
Expiration Date	5 Years
Standard Compliance	IEC 60601-1 IEC 60601-1-2 ISO 80601-2-70
IEC 60601-1 Classification	Class II Equipment Type BF Applied Part IP21-Drip-Proof, Vertical

CPAP Tubing

CPAP Mask

CPAP Device Bag

Features

- Ramp function allows user to fall asleep more comfortably, gently increasing the pressure.
- Simple user interface, easy for the end user to learn how to control the device.
- Is capable of recording the treatment duration and the device working time.
- Two optional ways to draw user's attention to the encountered usage issue, such as leakage: with backlight and sound (could be simultaneously)

Product Functions

- Ramp function
- Data record
- Clock and alarm
- Humidifier (Optional)
- Micro SD card w/ software

CPAP Full-Face Mask

Nasal Type Model:

- RAP-301 (Small)
- RAP-302 (Medium)
- RAP-303 (Large)

Comfort

Multi-layered cushion technology helps to deliver tubing pressure even when body moves, and provide good attachment to human face.

Complementing Materials

Silicone mask body is autoclavable up to 135°C.
Polycarbonate frame keeps the structure rigid and durable.

Functionality

Detachable AAV (Anti-Asphyxia) valve for BPAP use.

Tiny blowholes for quiet and smooth air flow.

Quick release buckles for daily wearing.

Simple assembly for easy parts cleaning and replacement

NIV Full-Face Mask

- No-vent design
- The connector inner diameter 22mm
- Application for ventilator patient

Nasal Type Model:

- RAP-301 (Small)
- RAP-302 (Medium)
- RAP-303 (Large)

Small Medium Large

Airstream blowholes reduce the flow noise for quieter use.

Ladder-shaped forehead cushion provides comfort and flexibility in order to fit different foreheads.

PC frame with rigid structure strong and reliable.

Firmly attached face cushion light and thin, fixing the mask comfortably.

Flexible connection elastic for better CPAP air supply.

- The silicone mask attaches firmly to the human face to avoid air leakage.
- One port design for convenient O₂ supply and CO₂ measurement.
- Low noise level and good compatibility.
- The tube connection is flexible to adjust to the body movement.
- Quick release headband with buckles.
- The nasal mask has the forehead pad for better adjustment.
- The connector on this CPAP mask can turn 360°

Portable Suction Unit
Model: ASU-200

Specifications

Model	ASU-200
Power Consumption	35 VA
Max Suction Pressure	-80 Kpa (~ -600mmHg)
Exhaust Air Volume	24 L/min
Unit Dimensions	190mm (L) x 110mm (W) x 175mm (H) 140mm (L) x 340mm (W) x 210mm (H)
Weight	1.7 Kg/2.0kg
Sound Pressure Level	< 70 dB (A)
Supply Voltage	AC 100-240V, 50/60Hz Acare car charger for DC12V
Battery Usage Time	1hr (during fully charged)
Battery	14.8V, 2.5Ah
Container	1000 ml
Operation & Storage Range	Operation Temperature: $\pm 10^{\circ}\text{C} \sim +40^{\circ}\text{C}$ Storage Temperature: $-15^{\circ}\text{C} \sim +50^{\circ}\text{C}$ Humidity: 10% ~ 90% Non-condensing
Standard Compliance	IEC 60601-1 IEC 60601-1-2 ISO 10079-1
IEC 60601-1 Classification	Class I Equipment Type BF Applied Part IP21
Standard Accessories	Suction container, connection tube, power adapter and carrying bag.
Optional Accessories	Car charger, Handy Controller (on/off) and battery

Device Bag

Handy Controller (on/off)

DC Cord

- Portable and simple and operate
- Small size, light weight for carrying
- High power performance with vacuum -80kPa
- Fully charged battery lasts for up to 60 minutes runtime
- Power supply allows operation on AC 100V -240V and DC12V with Acare car charger
- Suction container provide 800-1000ml, depending on user's requirements

Acare Demand Valve Resuscitator Set provides the benefits of resuscitation, suction and oxygen therapy all in one. The Acare demand valve will function as a manually triggered ventilator as well as provide 100% oxygen on demand for the spontaneous breathing patient. Demand valve resuscitator set includes a demand valve, an oxygen regulator and an oxygen powered aspirator with collection jar.

Features

- Durable anodized aluminium body.
- Demand valve provides a resuscitation flow rate of 40 LMP and a manual flow rate up to 160 LPM.
- Allows both hands to remain on the mask when disabling the manual ventilation with a button

1. Suction

- Connection: DISS
- Supply Pressure: 50 PSI
- Free Airflow: 30L/min

2. Oxygen Supply

- Inlet Connection: CGA870 yoke (various types of inlet connection available).
- Output Pressure: 50 PSI
- Flow Rate: 0-25 LPM

3. Oxygen Demand Valve

- Gas Inlet Connection: DISS
- Gas Outlet: 22mm x 15mm
- Pressure: 40~60PSIG
- Flow Rate: Provides 40LPM manual flow rate and up to 160LPM flow rate on demand by the patient.
- Pressure Relief Valve: 60cm H₂O features.

Safety Trap

Safety traps are recommended to use for protecting regulators and preventing accidental overflow.

Safety Trap Connection

*1/8" Male NPT
* DISS

Features

- The gauge is located inside the regulator body
- Accurate suction control within $\pm 10\%$
- Quick Switch between modes: Reg/Off/Full Vacuum
- Clear Analogue Display of the 2 1/2" pressure gauge
- Constant vacuum control
- Nice outlook with durable plastic case
- Large control knob for easy setting
- Comes with a variety of inlet adapters

Medical Outlet

Inlet Connection

Inlet connection specifications can be customised.

Screw Plate (Optional)

Can add screw plate to meet your installation requirement.

Valve Body

Valve Body is built with pure brass material to avoid oxidation, it is durable for long term use. Special structure design allows repairing under gas supply.

Inlet Tube

Pure brass material to avoid oxidation. For long term use and less maintenance efforts. Tube diameter can be customised.

Aluminium Cover

Use aluminium material for cover body. Strong in using and easy for cleaning.

Color Code Ring

ISO 32 color standard is applied to identify different gases. The color code ring is made by mould injection instead of traditional label sticker for durable use.

Two-step Pull-Out Security Design

Our gas outlet has two-step pull-out design. The adapter will be ejected on the second time, to protect the user from pulling out adapter accidentally.

MK IV STYLE

MG-BS-10 (O₂)MG-BS-13 (O₂)

MG-BS-30 (VAC)

Medical Outlet N₂O / O₂ (Entonox)

Features

- Modular design
- Compatible with US-Ohmeda, British-MK IV, Germany-DIN, Japanese-Kawasaki, French-AFNOR connection standards.
- O₂, Air, Vacuum, N₂O/O₂ (Entonox) gas outlets are available.
- All types of gas outlet could be repaired under gas supply.
- Large color-coded front plate for easy gas identification and aesthetic appeal.
- The main material is pure brass, it is durable for long term use.
- Easy installation and well connecting/removing with probe.
- Two step pull out design can prevent the user from pulling out the adapter accidentally.

Bed Head Unit (Hospital Panel)

Bed Head Unit Customization

We are capable of customizing Bed Head Unit with technical specification provided.

- Bed Head Unit Length
- Gas Outlet Type & Quantity
- Requirement of Electrical Light
- Special Requirement

Features

- Modular Design
- Can be equipped with O₂, Air, Vacuum, N₂O gas outlet
- Colorful front plate could be designed
- Includes large light switch
- Panel built with strong metal frames
- Easy installation of various types gas outlet
- With several electricity power sockets for connecting medical equipments
- Can be customised to meet your requirements

Medical Hose Adapters

- Available in a variety of gases
- Available in USA and ISO colors
- Length: 100m

Oxygen Concentrator

EverFlo

Your patients will appreciate the compact, non-medical design of the EverFlo oxygen concentrator because it will fit right into their home environment. The unit is designed to be small, light, easy to transport and will fit into the trunk of a car. EverFlo has an easy-to-mount humidifier bottle connection and no patient filter.

Specifications

Input Voltage	120 ± 10% VAC
Input Frequency	60 Hz
Ave. Power Consumption	350 Watts
Oxygen Concentration	93 ± 3% (at 5 LPM)
Litre Flow	0.5 - 5 litres per minute
Weight	14kg (31lbs)
Sound Level	45 (typical) dBA
Dimensions	58.4cm (H) x 38.1cm (W) x 24.1cm (D)
OPI (O₂ Percentage Indicator)	Low Oxygen (82%)
Alarm Levels	Very Low Oxygen (70%)
Operating Temperature	12°C to 32°C / 55°F to 90°F
Storage/Transport Humidity	34°C to 71°C / -30°F to 160°F Up to 95% relative humidity °C/°F
Operating Humidity	Up to 95% relative humidity °C/°F
Outlet Pressure	5.5 PSI
Operating Altitude	0 - 2286m

ALUMINUM GAS CYLINDERS

Medical Ranges

We distribute a wide range of Medical Equipments such as Medical Aluminium Cylinders, Medical Regulators, Resuscitation Kits and Oxygen Therapy Kit.

Catalina Aluminium Cylinders

We are the distributors of Catalina Aluminium Cylinders in Asia and its cylinders are widely established in the gas industry as the highest quality Aluminium Cylinder. All cylinders are manufactured in accordance with U.S. DOT 3AL and TC 3ALM requirements and every cylinder is inspected and tested by a DOT and TC authorized independent inspection agency.
